THE DAYRIDGE PRODUCT FAMILY

Choose the tools. Keep it simple.

Two annual packages for staff management. Optional monthly add-ons build on Full Workspace.

Clockx

FROM £149.99 / YEAR

The everyday essentials

- Build and publish staff rotas.
- Record clock-ins, clock-outs and breaks.
- Request and approve annual leave.
- Review payroll hours and export CSVs.
- Keep basic employee details.

Full Workspace

FROM £299.99 / YEAR

All Clockx tools, plus:

- Open shifts and extra-hours requests.
- Sickness and return-to-work records.
- Onboarding and protected personnel files.
- Contracts and company documents.
- Wider role permissions.

Extend Full Workspace when you need to

Tasks add-on

Managers assign work. Employees track and complete it in My Tasks.

Stock Management add-on

Authorised managers record counts, review stock usage and reconcile takings.

Add-ons are charged separately each month. Starting prices cover up to five employees.

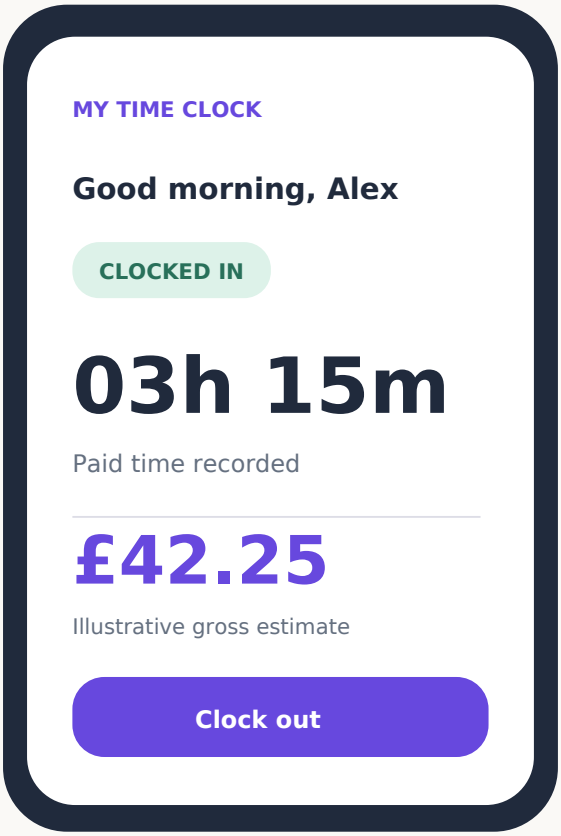

PACKAGE = TOOLS. ROLE = ACCESS.

Your package decides which tools the business has. Roles and granted permissions decide what each person can see and do.

CLOCKX + FULL WORKSPACE

A clearer record of the working day.

Clock in, record breaks and review hours in one place. Employees can use My Time Clock or a registered workplace kiosk with their employee number and PIN.

01 **Record the real day**

A rota is a plan. A clock-in records when work starts; clock-outs and breaks complete the record.

02 **Review and correct**

Managers can review records, clock employees in or out and correct entries where needed.

03 **Prepare payroll hours**

Review recorded hours and export a CSV for your existing payroll process.

An example you can follow

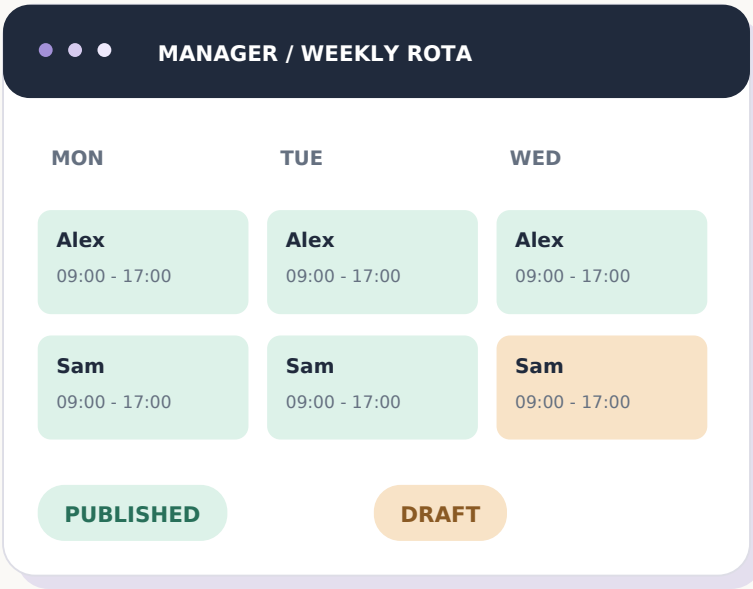

09:00–12:30 is 3h 30m elapsed. Less a 15-minute unpaid break gives 3h 15m paid. At £13/hour, the illustrative gross estimate is £42.25.

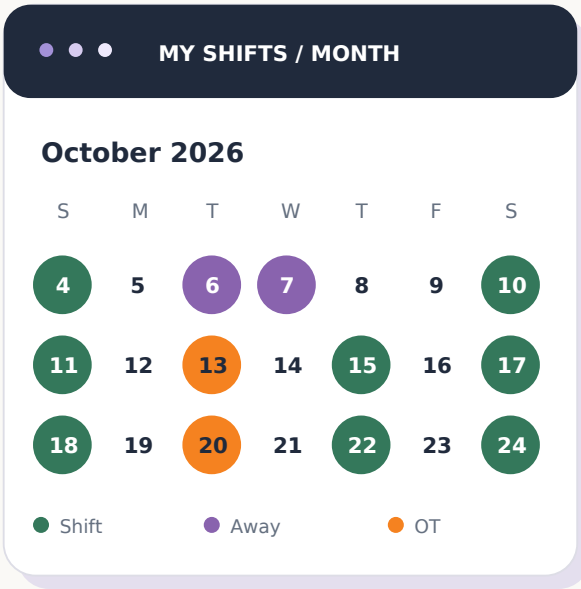

Break rules and manager corrections affect paid hours. Gross estimates exclude tax, pensions and other deductions; DayRidge does not generate payslips.

CLOCKX + FULL WORKSPACE

Plan the week. Keep everyone informed.

Build a rota, check availability and publish shifts so employees can see their working week in My shifts.

Illustrative manager and employee views. Green: shifts. Purple: time away. Orange: overtime.

Leave requests, with a clear decision

1

Request

Choose dates and review estimated hours and balance.

2

Review

Manager checks cover, balances and published shifts.

3

Decide

Keep the request status clear: approved or declined.

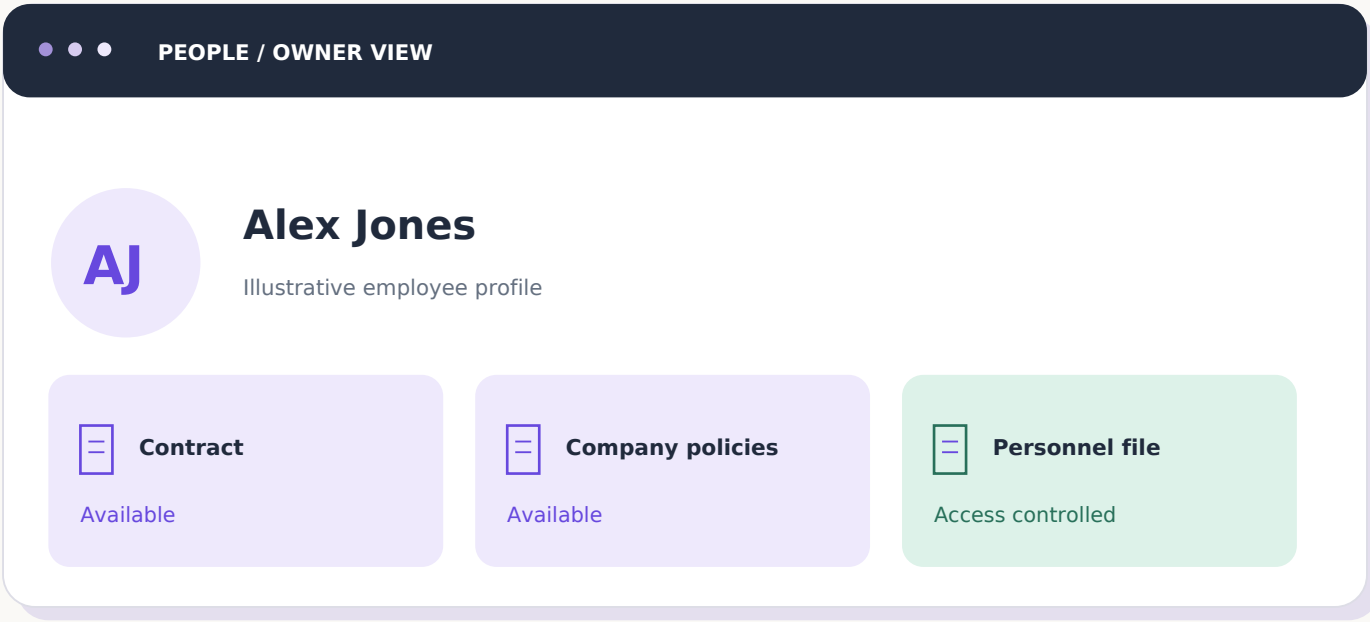

Leave estimates depend on published shifts, working patterns and the configured leave year. Requests crossing the leave-year boundary should be split.

Need cover? Full Workspace also includes Open shifts and extra-hours requests.

FULL WORKSPACE

More of your people picture, together.

Bring the core rota and time tools together with the records and workflows that support your team throughout their time with you.

01

Start with structure

Keep onboarding, contracts and company policies alongside employee information.

02

Support the full journey

Manage sickness and return-to-work records with the wider employee record.

03

Give the right access

Use wider role permissions and protected personnel files to control who can see and manage records.

04

Respond to changes

Use Open shifts for cover and extra-hours requests when the working week changes.

OPTIONAL MONTHLY ADD-ONS

Useful extras. Only when you need them.

Tasks and Stock Management are available with Full Workspace. Add the tools that fit how your business works.

Tasks

Opening checks
To do

Restock supplies
In progress

Close-down checklist
Complete

Illustrative task board

Stock Management

ITEM	CLOSING
Coffee beans	12 bags
Milk	18 cartons

Expected takings	£840
Actual takings	£830
Difference	-£10

Illustrative reconciliation

Clear actions for the team

Assign instructions and deadlines. Employees use My Tasks to see their work and record completion.

Understand your stock

Record opening and closing counts, deliveries, adjustments and waste. Review usage and compare expected with actual takings.

£4.99 / business / month

+ £2.35 per agreed chargeable user

5 chargeable users = £16.74 / month

£9.99 / business / month

Manual stock counts and till figures. No direct till integration in version 0.1.

Stock units must stay consistent. Recipes, portions and yields are not converted automatically.

CHOOSE YOUR WORKSPACE

Two packages. One clear starting point.

Clockx covers everyday staff management. Full Workspace adds the wider people tools and access to optional business add-ons.

WHAT YOUR TEAM NEEDS	CLOCKX	FULL
Rotas and published shifts	✓	✓
Clocking, breaks and manager corrections	✓	✓
Annual leave requests and approvals	✓	✓
Recorded payroll hours and CSV exports	✓	✓
Basic employee details	✓	✓
Open shifts and extra-hours requests	—	✓
Contracts and company policies / documents	—	✓
Onboarding and protected personnel files	—	✓
Sickness and return-to-work records	—	✓
Wider role permissions	—	✓

Optional extras for Full Workspace

Tasks and Stock Management are separate monthly add-ons. Choose either or both; they are not included in the annual package price.

ONE SYSTEM. THE RIGHT VIEW.

What each person can see and do.

Your package provides the tools. Each person has a view suited to their role, with business access kept separate from personal information.

01 Employee

CLOCKX + FULL WORKSPACE

Their own published shifts, past clockings, recorded hours and estimated earnings. Clock in or out and request annual leave.

Full Workspace adds relevant documents, open shifts, extra-hours requests and sickness reporting. My Tasks appears when the add-on is active.

02 Manager

CLOCKX + FULL WORKSPACE

Plan and publish rotas, review requests, manage the team and review or correct time records. A linked employee profile can use My shifts & pay.

Full Workspace adds wider people and cover workflows. Team wage rates, gross-pay reporting and payroll access stay with the Business Owner.

03 Team Leader

FULL WORKSPACE - PERMISSION BASED

Help run the team through the sections the owner grants: rota management, team directory, open shifts, attendance totals or annual-leave reviews.

Permissions are granted individually. Attendance totals exclude wages; private employee files and payroll remain restricted.

04 Business Owner

CLOCKX + FULL WORKSPACE

The main business manager view, plus payroll, wage rates, gross-pay reports, exports, business settings and control of manager or team-leader access.

Full Workspace also provides onboarding and protected personnel tools. Stock access is granted to the appropriate managers when that add-on is active.

Employees see their own records. Team tools depend on the package, active add-ons and permissions set for that person.

WHAT WE STAND FOR

Good software. Straight talking.

DayRidge is built around real businesses and real working days. These are the values behind how we build, explain and improve the product.

01 / OUR STARTING POINT

Straight talking

Straight answers. Clear pricing. Honest explanations of what is included, what costs extra and where the limits are.

02

Built for real working days

Practical tools for busy teams: plan the rota, record the hours and handle the requests that come with running a business.

03

Respect your people

Clear responsibilities, appropriate access and care with employee information. Give people the information they need for their role.

04

Constant innovation

Listen to businesses, challenge unnecessary admin and keep improving the tools that make a useful difference to the working day.

What that means for your business

A clear package comparison, published prices and a straightforward conversation before you decide.

TRANSPARENT PACKAGE GUIDE

A plan for your team size.

Annual prices are per business. Your agreed quote confirms the package, employee allowance and any monthly add-ons.

CLOCKX

Up to 5 employees

£149.99

per business / year

Up to 10 employees

£219.99

per business / year

Up to 20 employees

£369.99

per business / year

FULL WORKSPACE

Starter	1–5 employees	**£299.99**
Team	10–15 employees	**£649.99**
Business	16–30 employees	**£1,149.99**
Scale	31–50 employees	**£1,899.99**

For 6–9 employees, add £45 per year for each employee above the first five. Example: 8 employees = £434.99 per year. Fixed bands apply from 10 employees.

Managers are included. A manager with an employee shift profile uses one employee slot. Extra staff above the approved allowance need platform approval.

Over 20 employees on Clockx or over 50 on Full Workspace? Ask for a custom quote. Annual subscriptions are arranged by bank transfer or direct agreement.

DAYRIDGE IN ACTION

One working day. Connected from the start.

Example views show how planning, clocking and reviewing hours connect across your team.

ILLUSTRATIVE PRODUCT VIEWS / EXAMPLE STAFF AND HOURS

01 / MANAGER: PLAN THE WEEK

Publish a rota your team can see

Alex	Sam	Jamie
09:00 - 17:00	09:00 - 13:00	13:00 - 21:00

Published shifts appear in each employee’s personal schedule.

02 / EMPLOYEE: RECORD THE SHIFT

MY TIME CLOCK

03h 15m

CLOCKED IN

TODAY’S PUBLISHED SHIFT

09:00 - 17:00

Clock-ins and clock-outs create the worked-time record.

03 / BUSINESS OWNER: REVIEW HOURS

EMPLOYEE	IN	OUT	BREAK	PAID HOURS
Alex	09:00	17:00	30m	7h 30m
Sam	09:00	13:00	0m	4h 00m

Review recorded hours, then export a CSV for your payroll process.
